

Crossroads Collective Clinic

AFFORDABLE COUNSELLING

How do we offer affordable Counselling?

At Crossroads Collective, it's important to us that we get our services out to everyone possible. We know that financials can often be a trigger for people who are interested in the services but don't feel like they can spend that amount of money on them, this is when our counselling interns can become interesting for you or your loved ones.

Thankfully, at Crossroads Collective, we have a solution for you. We know just how important counselling is for individuals. From one-on-one talk therapy to family and marriage counselling, having someone to discuss things with is important. This is why we offer affordable, accessible & qualified counselling interns services.

Our Team of Counselling Interns provide all services on a sliding scale for payment.

Services Include:

- Child & Youth Counselling
- Play Therapy
- Family Counselling
- Couples Counselling
- And more!

Our Interns

When you work with one of our counselling interns, you're working with someone who is eager and excited about their career and helping others achieve wellness. At Crossroads Collective, we only accept the best of the best. All of our Masters of Counselling Students are supervised by an accredited supervisor with additional training in mentoring and guiding our student interns. We provide students with the opportunity to gain speciality training in these diverse and in-demand areas of counselling.

Our Rates

Our intern rates for services are dependent on your need and income. Standard rates on our sliding scale are typically \$40-80 per session, however, we know that everyone is faced with different circumstances – and we do have the opportunity for lower rates to accommodate your needs. Our belief is that there should be no barriers to mental health services.
