Internship Opportunities for
Counselors and Music Therapists

About Crossroads

We are a large multidisciplinary clinic and can offer supervision for interns specializing in play therapy, child and youth, adult counselling, couples counselling, high conflict, music and art therapy. We also offer group counselling hours. Please see our website for a complete list of services we provide to our clients; you may have the opportunity to gain specialty training in these diverse and in-demand areas of counselling.

Why Choose Us

We offer students an opportunity to complete their internship requirements that compliment their academic training. In addition to all the standard components of an internship, we offer students a robust 16-week training program that focuses on skills, tools, protocols, and their overall professional development. At Crossroads Collective, we focus our internship program on graduate students, and may consider interns completing other programs such as diplomas. Following internship completion, students may be offered a paid position to work as a Counsellor or Music Therapist with Crossroads Collective.
